A WARRIOR STORY

TMLTF made a huge impact in my life and my family's life. It was already a challenge trying to understand what was happening to me what; but Kelly and her family made me feel this was going to be nothing but small stepping stone! I never thought we would've received that kind of support from anyone at the time. This was possible because my ex-football coach then knew Kelly and made it possible for us to meet!! For me, the battle was already won in my mind. What was really tough for me was seeing my family, that was the most difficult part. My parents, grandmother and two sisters didn't think it was going to end well— as most people do anyway. However, Kelly and the foundation were there for ALL of it! Financially, giving my family and I a check for security deposit we needed to make to live in the house we needed to rent then. Materially, Kelly calls me one day asking me if my mom wanted a set of sofas. My mom STILL loves them. During the holidays she paired up with another foundation, when I got an electric guitar that I love signed by a few famous artists!! The list can go on as to how much and how many smiles TMLTF brought me and my family during those 6-7 months. It was tough battle for me, but a harder for my family but the foundation helped my family stay on their feet and gave them HOPE! I absolutely love TMLTF! Even to this day we get invited to all sorts of events, fundraisers and outings! I thank God so much for Kelly and TMLTF for being in my life and I know they'll continue to impact thousands - Warrior Armando
